

ONCE IN TIME, NOW IN SPACE

A VINCENT TIRRI
FILM

Images and videos provided by Nasa Library
Music provided by Story Blocks

BASIC IDEA (LOGLINE)

A timeline of how Nasa plans to use Artemis to one day make a permanent base on the moon, leaving us one step close to Mars.

PURPOSE/OBJECTIVE

The purpose is too exemplify the importance of the Artemis missions, the timeline of how it will happen, and its ultimate goal. This is in attempts to share how space travel's importance can benefit mankind, and how CTE jobs can help.

The background of the slide is a dark, deep space scene. In the upper right, the planet Saturn is visible, showing its characteristic rings. Scattered throughout the scene are numerous asteroids and smaller celestial bodies of various shapes and sizes. The overall lighting is dim, with some highlights on the planet and asteroids, creating a sense of depth and vastness.

TARGET AUDIENCE

The video will be directed to all ages, of whom don't know about the Artemis missions or want to learn more.

GENRE

- **Inspirational**
- **Informative**
- **Non Fiction**

FORMAT

**Timeline and
sequence, following
progression over
time.**

SYNOPSIS

The video will start with hook about who Artemis is and her relation with the mission. It will then go on to start a timeline of each mission planned and already executed. Photos and videos will be used to show reference ideas and helpful visualizers.
